Student feedback: Science

Your learning experience during my placement

Please do not write your name. Be honest: your feedback will help me improve my teaching.

For questions 1–5, circle one answer in each row.

1. The lessons helped me understand how electrical circuits work.

Strongly disagree Disagree Neither agree nor disagree

Agree Strongly agree Not sure

2. The models and demonstrations helped me understand ideas that were difficult to imagine.

Strongly disagree Disagree Neither agree nor disagree

Agree Strongly agree Not sure

3. When I struggled, the teacher gave me the help I needed to continue.

Strongly disagree Disagree Neither agree nor disagree

Agree Strongly agree Not sure

4. There was enough challenge for me, including when I finished early.

Strongly disagree Disagree Neither agree nor disagree

Agree Strongly agree Not sure

5. I felt comfortable asking questions, making mistakes and sharing my ideas.

Strongly disagree Disagree Neither agree nor disagree

Agree Strongly agree Not sure

For questions 6–8, one or two sentences are enough.

6. Think of a model, demonstration or practical activity we used. What did it help you understand, or what remained confusing?

_____

_____

7. What did I do that helped you feel included or supported in the lessons?

_____

_____

8. What is one thing I could change to help you learn better?

_____

_____

Thank you for helping me improve my teaching.
